

3rd SESSION of TRAINING and DEBATE ABOUT CORPORATE IMPUNITY and HUMAN RIGHTS

17-18 June / 9h15 to 17h45

Pensão Martins
Av. 24 de Julho, 1098, Maputo

Let's discuss the schemes by which big corporations make use of their absurd economical powers, trade and investment agreements, legal loopholes, and a vast range of tricks and strategies to stay in impunity despite being responsible for atrocious human rights violations and environmental crimes!

And also:

In what ways have we been losing, as citizens, as countries, our most fundamental rights to the hands of private capital?

Could capitalism survive without patriarchy?

How laws are far from being perfect or fair – and how it is important that we mobilize towards improving them.

The myth of “poor” Africa – and how that is useful to ensure we give away our land, knowledge, natural and human resources

Why should we fight for an international treaty to regulate transnational corporations? What is happening at the UN?

What has been the cost to us Mozambicans, so far, of this ruthless model of extractivist development? And how much more will it cost?

We speak about system change – which principles drive this change? And how will we coordinate to achieve this change?
